Project Manager

Lead developer & CTO

Work History
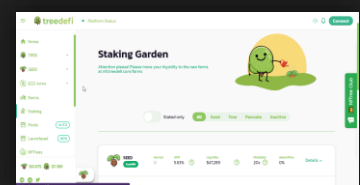

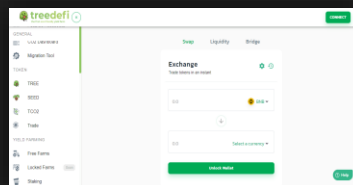

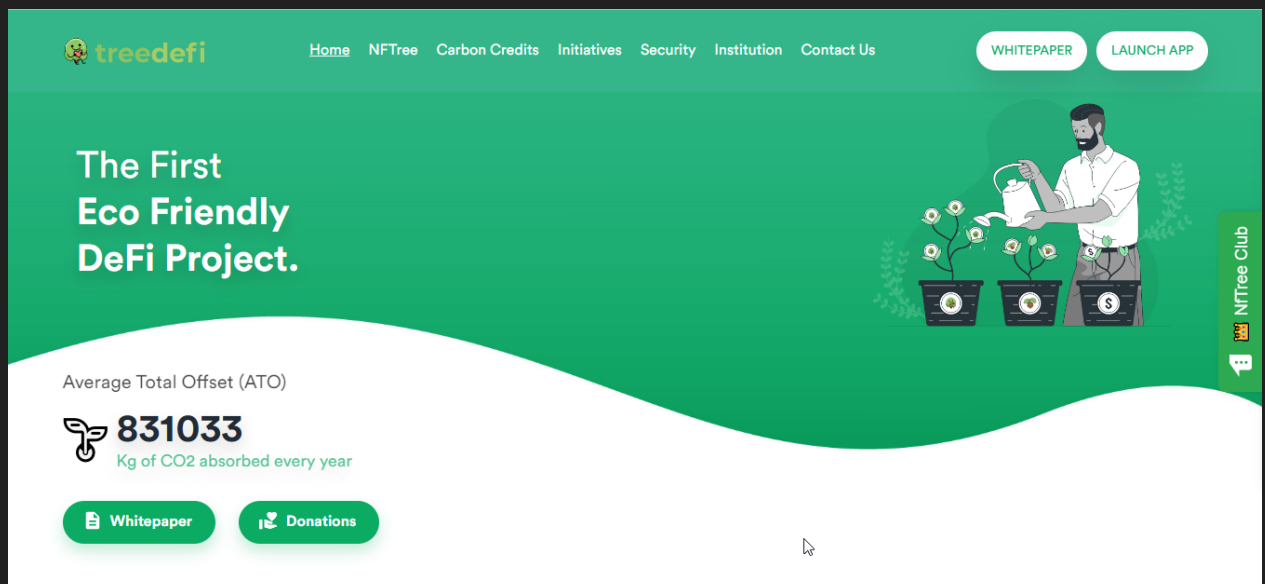

➢ **Blockchain Full Stack Developer**   **Jan 2018 – Present**

- **Fixer**
  Minato City, Japan   Jan 2018 – July 2020
  **Worked as a core member of Blockchain developer. During this period,
  I maintained high algorithms and implementation capabilities. So clients were
  satisfied.**
- **Freelancer**
  Montreal, Canada Aug 2020 – Present
  **Worked as blockchain and lead developer. Built the team with my friends and
  lead the team successfully. "Fast & Perfect", this is our team spirit. Our team was
  perfect, literally. Proud of our team and maybe you would be feel like that too if
  we will work together. :)**

TreeDefi

https://treedefi.com

**Took part in this project as Lead Developer .Built the smart contract for staking,
farming and swap for Blockchain.For Frontend, built the landing page and
integration.And lead the whole development as CTO.
This project was launched successfully in the deadline.
Through this project, we could build the team spirit strongly and then progressed,
helping each other.
I can build this team in a short time if you want.
Main Stacks: Solidity, React(Template is typescript)
Other Stacks: AWS, Git, CSS, SCSS, Redux**
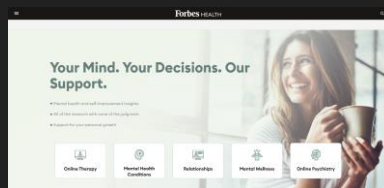

➢ Full Stack Developer
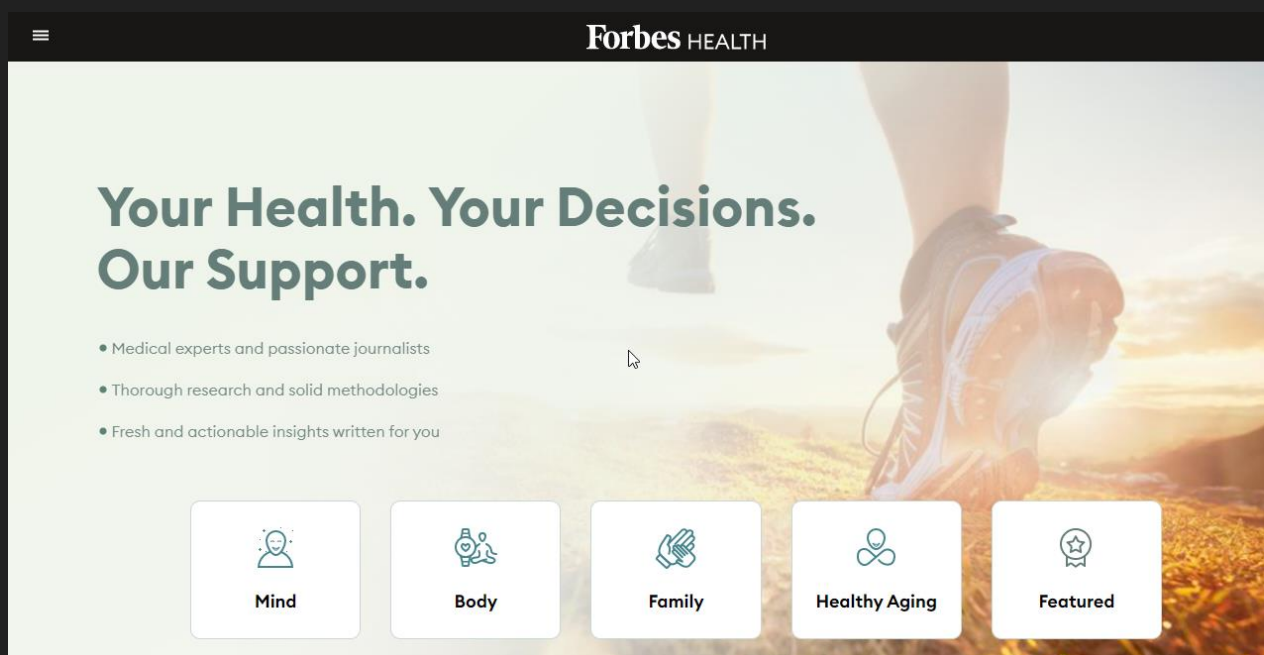

- **MEZURASHICO**
  Ota City, Japan   Jan 2014 – July 2018
  Worked as a core member of Full Stack developer & Lead developer.
  - Managed user authentication and authorization for servers and various environments.
  - Created web applications and components using Javascript, Python, Go, Ruby programming languages.
  - Developed back-end components to connect applications with web services.

ForbesHealth

https://www.forbes.com/health/

Scheduled & lead the project. Managed the database and worked for backend development.
All processing was performed on the database to save time. As a result save 10s for Loading...
Database: Oracle.
Frontend: Vue
Backend: Php (Laravel)
In addition, participated in many projects and achieved results.
e.g Ecommerce, shopify
